Corporate Profile

The HSM Zamecki has introduced a quality management system on 30-4-2007. The certification was carried out according to DIN EN ISO 9001:2000 on June 4th, 2007.

Since May 27th 2016 we are certified according to DIN EN ISO 9001:2015.

The HSM was founded in June 1992. Contacts to manufacturers in the semiconductor market and corresponding market knowledge led to a contract with AMD GmbH as technical consultant in the "Green Arrow" team in May 2000 (this contract ended in June 2006). The cooperation with AMD drew further contracts and partnerships after itself. In March 2016 the company was rebranded to HSM Zamecki GmbH.

In the area of CPU cooling solutions the range has expanded through the use of several manufacturers with different production technologies. Our own developments for the area of embedded industrial PC and special solutions for standard PCs round off the supply.

The component division is extended also for industrial electronics next to the line of business cooling solutions for Medical PC, Military, Automation, Servers, Workstation and Embedded. Products as of ESD Protection, Inductors, Coils, Transformer, LAN and Ethernet Transformer and Combos, Connectors for mobile SSD parts, Cable and other are used in consumer products and or in telecommunications equipment, electronic controls for automation plants and other electronic equipments.

Our sales employees have more than 26 year experience in the sale of electronic and electromechanical devices. Since 13 years we are very successful in design in of cooling solutions for industrial and embedded systems.
